Online Condo Floor Plans

Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in each area from the dimensions that would be determined by using the description and definitions of that Unit set forth in the Declaration which generally includes all interior space between the perimeter walls, interior demising walls, interior structural columns, all floor slabs, floor area attributable to the outer perimeter of each balcony (even if the actual balcony square footage is greater or less than the square footage attributable to the outer perimeter of each balcony), and the area of all structural columns within the Unit. Actual square footage may typically be greater than the square footage attributable to the Unit as described in the Declaration by including the balcony square footage and the square footage of the demising walls. All dimensions and square footages are approximate and floor plans are subject to change.
