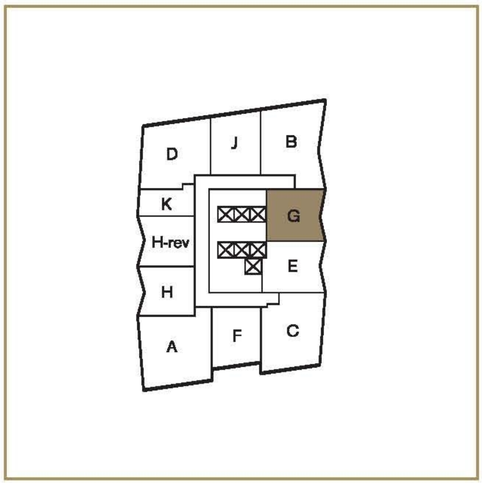
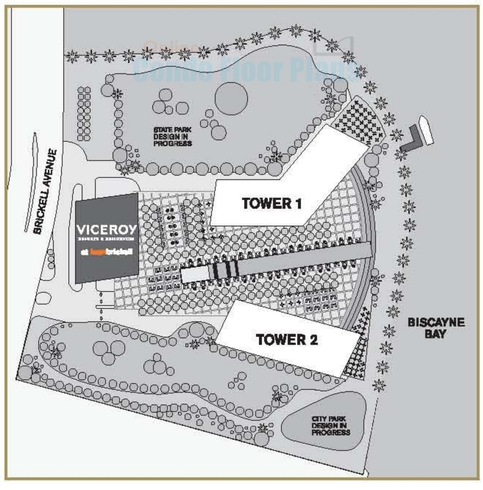
Online Condo Floor Plans





Stated dimensions are measured to the exterior boundaries of the exterior walls and the centerline of interior demising walls and in fact vary from the dimension that would be determined by using the description and definition of the Unit set forth in the Declaration. Net usable area typically excludes the interior space between the balcony & the glass/railing wall, exterior chases, interior structural components, additional improvements as more specifically set forth in your purchase agreement. Floor plan variations may exist. Actual floor plans and elevations may vary from the floor plans shown herein. Please refer to your purchase agreement for applicable definitions. Typically the smallest and the largest units of each type are listed. Actual square footage may vary from the square footage listed herein by typically +/- 5% and in some cases by more than 5%. Typically the finished ceiling height in the residential units is 9'-0" and in the penthouse units is 10'-0". Floor plans and specifications are subject to change.
